VENICE

Aria acqua terra
e fuoco insieme
in energia primordiale.
Venezia riflessa nel passato
sogno della memoria.
La terra risponde al Cielo

Air, water, earth
and fire become one
in a synthesis of primordial
energy. Reflected in the
ripples of its past, Venice
dreams on as the earth
echoes the call
of the Heavens

VENICE

Apocalissi e gloria
dei destini umani.
Neve fumo vento
vortici di abissi cosmici.
Onde cieli mari nebbie
pulviscolo di luce d'oro

Apocalypse and glory
in our mortal destiny.
Snow, wind, smoke,
in a downward spiral of cosmic
energy. Waves, sky, mist
and a glittering cascade
of golden dust.

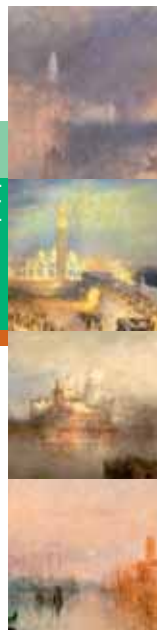

VENICE

Velatura e giallo brillante
trasparenza come d'acqua
volano nell'aria.

Azzurri tenui e azzurri intensi
colori che sfumano
come spettri nelle forme

***A veil** of mist envelops
the golden glow of the sun
as the myriad shades of blue
glimmer in the ripples of crystal
waters that ebb and flow as
waves. Spectral forms
create a mystic energy*

VENICE

San Marco nel tramonto
e il Doge sposa il Mare.
Folle e gondole su
onde d'argento
dei canali incantati.
Vele gonfie a colori
sfidano la tempesta

The sun sets over Saint
Mark's as the Doge
weds the sea. The crowds
look on as the gondolas
glide atop the silvery
waves of the enchanted
canals. Colourfully
swelling sails
brave the storm.

VENICE

Palazzi chiese ponti
specchiati al chiaro di luna
toni morbidi caldi
dorati evanescenti.
Procede la piccola vela
nel turbine marino

***Palaces,** churches and bridges
glisten in the moonlight,
their soft, warm, golden tones
envelop Venice in a ghostly energy
as the tiny craft sails on out
into the depths of the sea.*
